Corder Guy

4341 FM 535 Bastrop, TX 78602

Education:

• Texas A&M University, College Station, TX

Fall 2014 - Present

Computer Science, Bachelor of Science

Expected Graduation: May 2019

GPA: 3.4/4.0

Technical Skills:

• Programming: Python C++ C#
MATLAB LATEX Git

• Linux, Windows

• Computer hardware servicing

Projects:

• Bus Route Webapp (team of 3)

Spring 2017

Designed and programmed the back-end of a webapp that interacted with Texas A&M's transportation API and mapped bus routes and locations onto Google Maps, using Typescript/Javascript.

• Database (team of 3)

Spring 2017

Designed and programmed a basic implementation of a SQL-like database back-end and corresponding front-end in C++.

• Memory Allocator (team of 2)

Spring 2017

Designed and implemented a buddy-system memory allocator in C++.

• Asunder, 2D Video Game (team of 4)

Fall 2016

Programmed and helped design a video game for the Chillenium 48-hour game jam, using C# and the Unity game engine.

Work Experience:

• Texas A&M Live Lab

Summer 2017

Student Developer

Worked on the video game *Variant: Prime*, an edutainment calculus game by Triseum. Responsibilities included implementation of an interactive mathematics manipulation environment using C# and the Unity game engine, as well as development of tools as requested by other teams on the project.

• Teacher Retirement System of Texas, Austin, TX Technical Support Intern Summer 2015

Helped employees with computer- and network-related issues.

Prepared and deployed workstations for new and existing employees.

Monitored ongoing computer operations and alerted appropriate staff of problems.

Honors:

• TAMU Engineering Honors

- Recipient of 4 scholarships funding 70% of tuition:
 - National Merit Scholar Recognition Scholarship
 - National Merit Scholarship
 - President's Endowed Scholarship
